DETAILED ACTION

Allowable Subject Matter

1. Claims 6-8 are allowable over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

As per claims 7 and 8, the recited limitations pertaining to the specifics of generating a discard request based upon a memory threshold associated with the speaker output buffer, is not explicitly taught by the prior art of record. With respect to the prior art of record, Shlomot et al (5699481) teaches triggering/detection of a fast, slow, and normal event, and effect the data accordingly (col. 6 lines 27-42; col. 3 lines 60-65), however, but does not explicitly teach the recited limitations pertaining to the generation of a discard request, as claimed in claims 7 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
